Full-Stack Developer specializing in **MERN Stack Web Application Engineering**. Pre-final year Computer Science & IT student experienced across frontend, backend, and database layers. Skilled at translating requirements into functional, user-focused web applications and eager to contribute as a Full-Stack Developer Intern.

TECHNICAL SKILLS

Languages: Java, C++, JavaScript, SQL

Frontend: HTML, CSS, React.js, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js

Databases: MongoDB, MySQL

Tools & Platforms: Git/GitHub, Render, Vercel, Cloudinary

Core CS Concepts: Data Structures & Algorithms, OOP, DBMS

PROJECTS

MadhyaPradesh-Civic — Statewide Civic Complaint Platform

Apr 2026 – Sep 2026

Tech Stack: React, Node.js, Express, MongoDB, JWT, Tailwind CSS, Leaflet | [Live Demo](#)

- Engineered a MERN-stack statewide civic complaint platform covering 55 districts and ~409 tehsils of Madhya Pradesh, with role-based dashboards for citizens, department staff, and admins.
- Designed a weighted priority-scoring algorithm and a geospatial + text-similarity duplicate-detection pipeline (MongoDB \$geoNear) to automatically triage and flag repeat complaints.
- Implemented secure JWT (httpOnly cookie) authentication, bcrypt hashing, and NoSQL-injection safeguards; integrated Leaflet/OpenStreetMap for location picking and deployed the full stack (Vercel + Render) with automated test suites (Jest, Vitest).

Wanderlust — Airbnb-Style Travel Listing Platform

Dec 2025 – Feb 2026

Tech Stack: Node.js, Express, MongoDB, EJS, Passport.js, Cloudinary | [Live Demo](#)

- Built an Airbnb-style travel listing platform with full CRUD workflows, following an MVC architecture on Node.js, Express, and MongoDB.
- Implemented Passport.js authentication and owner-based authorization; added a reviews-and-ratings system with Joi-based validation and Cloudinary/Multer image uploads.

SageKart — Student-to-Student Campus Marketplace

Jul 2025 – Sep 2025

Tech Stack: JavaScript, Node.js, Express, MongoDB, Mongoose, JWT, Cloudinary

- Collaborated in a team to build a full-stack peer-to-peer campus marketplace for students to buy, sell, and chat over listings.
- Led frontend development — built a responsive vanilla-JS SPA (listings, wishlist, chat, auth flows) integrated with a Node.js/Express/MongoDB REST API.
- Implemented client-side JWT-authenticated API calls and Cloudinary-based image upload flows for listing creation.

EDUCATION

Bachelor of Technology — Computer Science & Information Technology

2023 – 2027

Sagar Institute of Research & Technology (SIRT) | Bhopal | CGPA: 7.05

Senior Secondary (XII) — Science, MP Board of Secondary Education

2022

Government School of Excellence | Percentage: 87.40%

Secondary (X), MP Board of Secondary Education

2021

Government School of Excellence | Percentage: 88.40%

TRAININGS & CERTIFICATIONS

Beginning with Python Programming

Feb 2025 – Mar 2025

SAGE Winter School | Virtual

Introduction to Front End Development

May 2025 – Jun 2025

Simplilearn | Virtual

Full-Stack Web Development

Jul 2025 – Dec 2025

Apna College | Instructor: Prof. Shradha Khapra

Core Java Course

Jan 2026 – Feb 2026

Coding Seekho | Instructor: Prof. Vikash Singh

LEADERSHIP & EXTRA-CURRICULAR ACTIVITIES

Technical Club — Member, College Technical Club / GDSC

2023 – 2024

- Conducted workshops on Git, JavaScript, and full-stack development; mentored juniors and organized internal coding competitions.
